## EXPERIENCE

### Technical Support, Project Team
Feb 2026 – Present

Genie Technologies Incorporated (GenieX)

- Coordinate project status and keep the team and developers aligned.
- Create project documentation.
- Test and QA updates, manually and with automation (Playwright, Robot Framework, Selenium).
- Deploy updates, including in client environments.
- Run product demos and client training.
- Provide customer support alongside project work.

### Helpdesk Analyst, Business Systems Support (BSS)
Aug 2024 – Aug 2025

Citco, Clark

- Began as a six-month intern, then stayed on a six-month contract as a Helpdesk Analyst.
- Supported colleagues in keeping their business systems and tools working.
- Completed company training in networking, Linux, AWS and programming.

### Intern
2024

Accenture Philippines

- Pre-graduation internship in a large technology company.

## EDUCATION

### Bachelor of Science, major in Information and Communications Technology
2024

Bulacan State University

## TRAINING AND CERTIFICATIONS
